

Extend your Lifestyle® Voss Robb Pivot Arm Awning

Bvlgari Boutique, Sydney

create shade with style

The Aluxor Voss Robb Pivot Arm Awning is an adaptable and economic window shade solution providing sun protection whilst maintaining airflow. Ideal for residential and commercial applications, the Voss Robb combines classical design with long lasting performance.

The system operates with two spring tension arms rated to 38 km/hr, so enabling robust performance even in the harshest weather conditions. The versatile design of the Voss Robb enables the inclination of the extension arms to be continuously adjusted up to 155°, as required, or be adapted as a fixed arm canopy shade.

The curved front extrusion can be powdercoated to your choice of colour or be discreetly wrapped in the selected awning fabric with an optional fabric valance fitted. The Voss Robb is available with or without a protective metal hood, depending on the installation location and application.

The single unit can be up to 5 metres wide with arm projections of 0.8 metres to 1.5 metres depending on the width and type of fabric. It is available as a wall or ceiling mount installation.

The Voss Robb is available in 8 standard colours or in a selection of custom powdercoat colours and a variety of fabrics to compliment the awning. The system can be operated manually by a crank handle, or can be motorised with optional sun and wind sensors.

Aluxor Awnings is a leading manufacturer of German precision-engineered awnings, operating in Australia for over 40 years. Aluxor awnings are built to last.

AWNING SYSTEMS

All operating components are designed and manufactured in Germany and certified to the European CE standard.

Extruded aluminium profiles provide solid, stable and long lasting quality that will not rust or vibrate in harsh conditions.

Construction hardware is made of marine grade 316 stainless steel.

Powdercoat profiles pre-treated by chromate conversion prior to coating to ensure longevity of finish.

Aluminium brackets interchangeable for top and wall fix installations.

Marrickville Metro, Retail Precinct, Sydney
