

*Extend your Lifestyle®*  
Aluxor VS II

### *create shade with privacy*

The Aluxor VS II is a vertical screen awning ideal for privacy and shade. Solar rays are blocked before they reach the windows, so providing an effective solution to reducing the internal room temperature.

The elegant and discreet cassette is constructed from high quality extruded aluminium with the cassette size being 110mm high x 120mm depth. A single unit can be up to 5 metres wide with a drop of 3 metres, and is available for wall mount or ceiling mount installation.

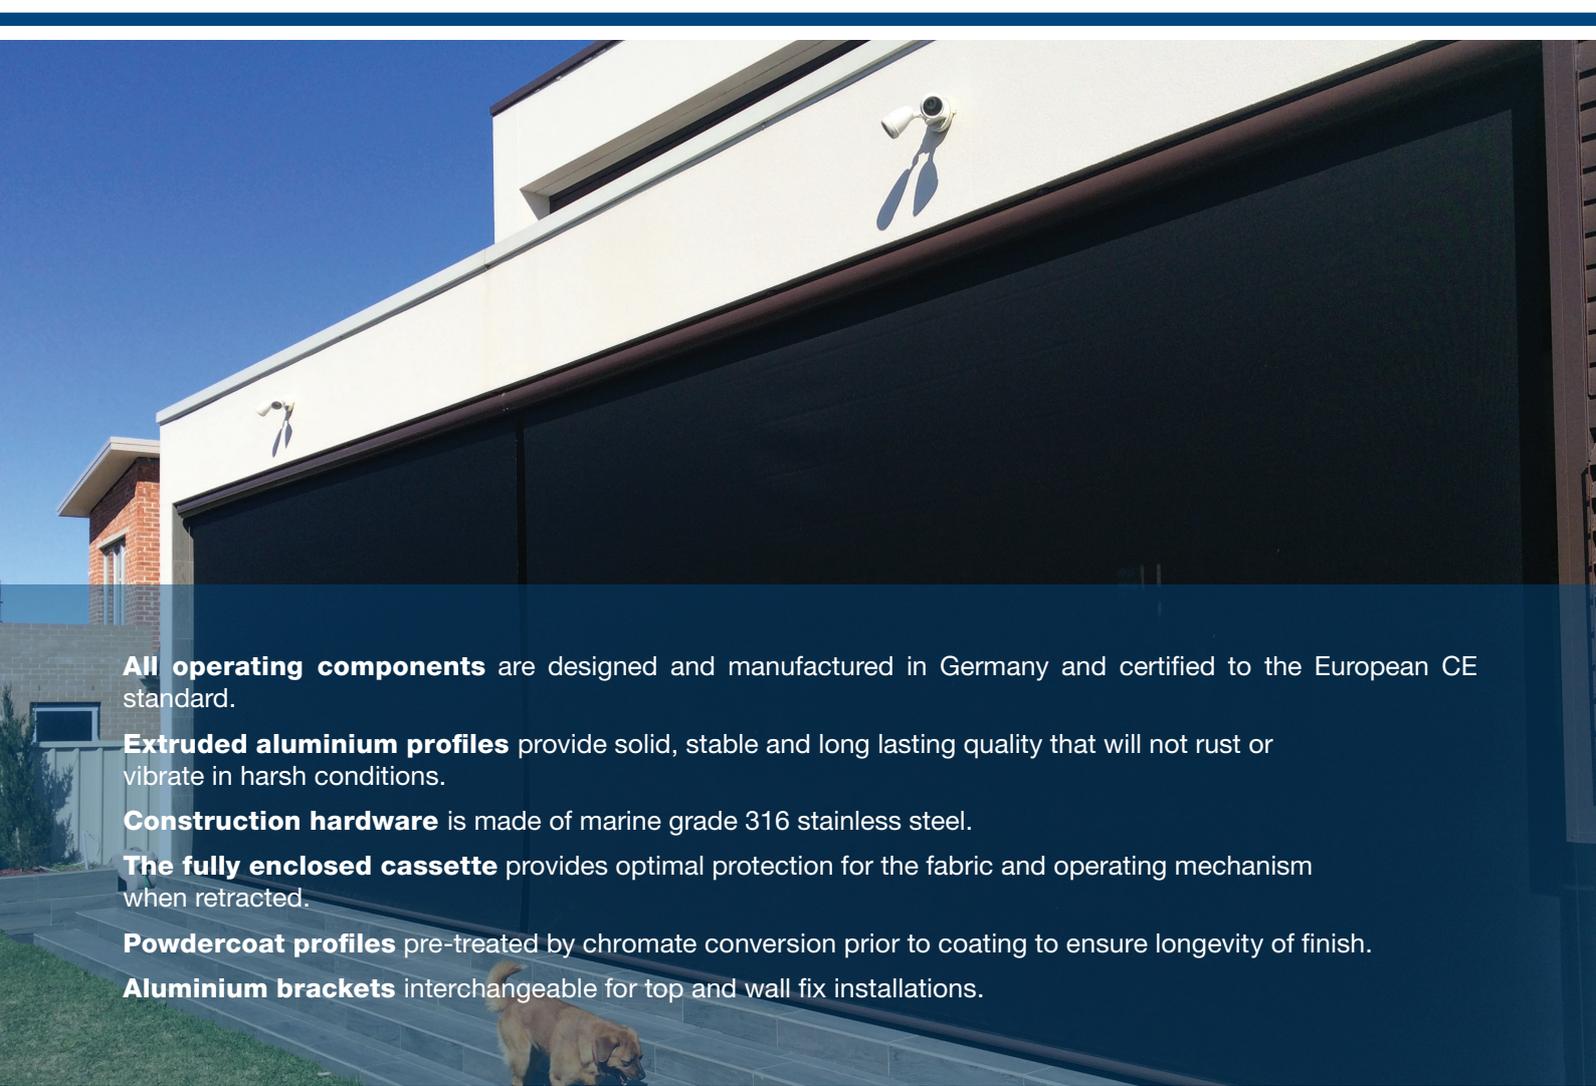

The vertical screen is available with tensioned stainless steel side cables.

The Aluxor VS II is stylish, innovative and highly reliable. It is available in 8 standard colours or in a selection of custom powdercoat colours and a variety of fabrics to complement the awning. The awning can be operated manually by a crank handle, or can be motorised with optional sun and wind sensors.

Aluxor Awnings is a leading manufacturer of German precision-engineered awnings, operating in Australia for over 40 years. Aluxor awnings are built to last.

AWNING SYSTEMS

**All operating components** are designed and manufactured in Germany and certified to the European CE standard.

**Extruded aluminium profiles** provide solid, stable and long lasting quality that will not rust or vibrate in harsh conditions.

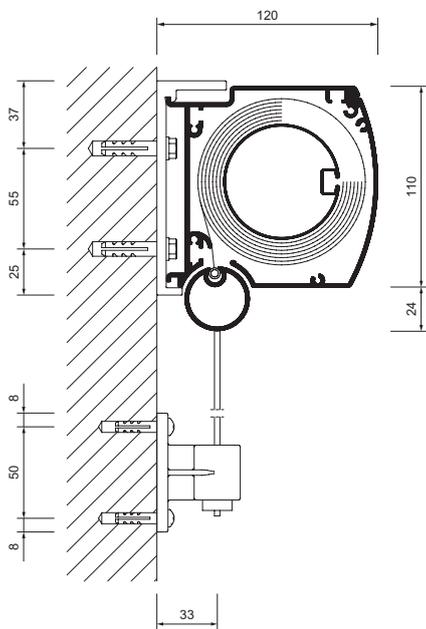

**Construction hardware** is made of marine grade 316 stainless steel.

**The fully enclosed cassette** provides optimal protection for the fabric and operating mechanism when retracted.

**Powdercoat profiles** pre-treated by chromate conversion prior to coating to ensure longevity of finish.

**Aluminium brackets** interchangeable for top and wall fix installations.
